

SPECIAL ALERT: FDA has approved a new two dose regiment for HPV9

The FDA has approved a new two dose regiment for HPV9 in the last few days. The Advisory Committee for Immunization Practices will be meeting on October 19th and 20th. The full [meeting agenda](#) is available online. The agenda indicates that at 11:10 ET (10:10 CT) on Wednesday October 19th, ACIP will discuss HPV vaccine. There is an hour and twenty minutes dedicated to this topic during which they will review and discuss the evidence for 2-dose vaccination schedule, discuss the proposed recommendations for 2-dose vaccination, receive public comment and have a vote on the recommendations. **Anyone may listen to any part or all of the ACIP meetings via telephone by dialing 877-925-7916 and using participant code 4080878459.** There will also be a discussion about Meningococcal vaccines at 1:45 PM ET (12:45 CT) on the same day. This discussion will include information and discussion about the impact of Trumenba on meningococcal carriage, immunogenicity studies of two MenB vaccines in adults, MenB-FHbp update and vote on recommendations.
